

## **Notification for the Selection of Achievements in Geo-Engineering Technical Innovation**

To all IAEG National/Regional Groups and Commissions:

In order to promote the development of Geological Engineering Technology, the IAEG XIV Congress will organize the selection of outstanding achievements in Geological Engineering Technology worldwide, based on recommendations from IAEG national groups and Commissions.

The selected outstanding achievements will be publicly promoted, awarded certificates, and invited to give speech at the IAEG XIV Congress. The relevant matters are notified as follows:

### **1. Selection Objectives:**

The selection objectives include all aspects of new technologies related to Geological Engineering, such as new software, apparatuses, in-situ solutions, and monitoring systems.

### **2. Selection Procedure:**

- **Material Submission:** The applicant should submit an electronic version of the achievement summary in accordance with Annex 1 before 24:00 on April 30, 2023.
- **Achievement Selection:** The Organizing committee of the 9<sup>th</sup> theme of the IAEG XIV Congress i.e. “New Technology in Engineering Geology” and the “Third Shaoxing International Forum” will organize an expert review and anonymous evaluation to the achievements.
- **Number of Selection:** A total of 3~5 outstanding achievements will be selected in this round.
- **Announcement of Result:** The outstanding achievements selected will be announced on the official website of the IAEG XIV Congress.
- **Release of Achievement:** The selected outstanding achievements will be released at the IAEG XIV Congress, and an invited speech will be made for each in the 9<sup>th</sup> theme "New Technology of Engineering Geology and the Third Shaoxing International Forum".

### **3. Contact Information and Address for Submitting Materials:**
